

Post-High School Options

**Join us on Monday, October 20th
at Plainedge High School, 7:30 pm**

Holly Stonelli from the Plainedge High School Guidance Department will discuss what we can do to help transition our children to the best post-high school opportunities. Additionally there will be a panel of staff from several local universities and a VESID representative describing their programs and reviewing common questions they get from both parents and graduating students.

- What are transition services and planning?
- Will my child learn to live independently and work in the community?
- Is there vocational support and employment opportunity?
- Is college possible?
- Will my child develop the necessary academic skills?
- Will my child develop the necessary social skills?
- Who will be my child's support system?
- Are efforts made to keep my child safe?
- Is financial aid available?
- Are there recreation and leisure opportunities after high school?
- What additional services are available to help with transition?
