Dear Plainedge Septa:

I am writing this letter to thank Septa for the wonderful bowling fun that our children experienced this past summer at 'Massapequa Bowl'. My son looked forward to seeing his teammates each and every week. Not only were the children excited to bowl and see each other every week, but so were the parents! I found it wonderful to hear everyone greeting each other week after week, and asking how everyone was doing. In fact, many of the parents that showed up for bowling each week were parents that I have not ever seen at a Septa meeting. It was so nice to see and meet so many new faces. I feel that because Septa had this wonderful activity for our children they in fact made parents aware that Septa does more than people may be aware of. In my opinion events like this one are not only beneficial for the interactive growth of our children, but for public awareness for our parents as well. Thank you Septa once again for providing such a wonderful service for our children.

Sincerely,
A Schwarting Septa Member
